Our present studies are related to magnetotellurics (oil, gas, mineral exploration), atmospheric studies (PEJ, Schumann resonances) and environmental exploration.

We are member of the: Academy of MT Sciences Germany.

Our last projects are

Water and Aquifer Resources in Northern Ireland <https://gov.ireland.ie/water>

Waste Deposit Leakage https://city_of_berlin.de/deposits

Massive Iron Deposits in Spain https://minerals_and_mining.es/metals/resources

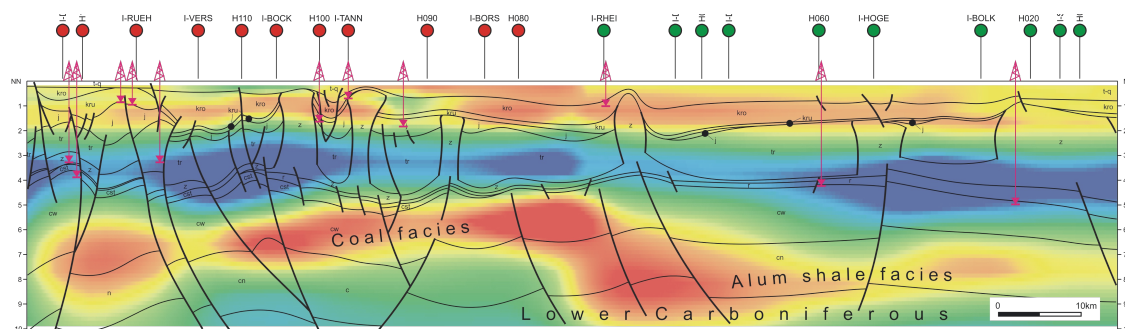

Figure 2: Inversion Result of Deposits

Our Company Team consist of 22 people working in the office and field:

Figure 3: metronix office and field team 2023

Our next projects are focusing on florid rich water reservoirs in the “South-West-Mountain” area with magnetotelluric instruments.

With kind Regards
metronix GmbH
